Functional corporate spin-off

As a part of the efforts to “rationalize functional departments” in “managing the Group to raise its competitiveness” which was started in 1997, a **spin-off and outsourcing study was started**, leading to the birth of DENSO UNITYSERVICE CO. in April 1999. Spin-offs in 6 functions covering security, vehicles, company housing, printing, mail, and facility maintenance were thus created. The objectives of the functional spin-offs were (1) cost reduction, (2) improvement in specialization, and (3) creating positions for human resources. Subsequently, various spin-offs including Denso Finance and Accounting Center. Co. Ltd. and DENSO WELL were established.
