

22nd Annual Symposium and Exhibition - SID Vehicle Displays 2016

DENSO International America (DIAM) is a sponsor of the Metropolitan Detroit Chapter of the Society for Information Display (SID) Vehicle Displays and Interfaces Symposium on October 22-23. Silviu Pala, Design Engineer at DIAM, is the co-program chair for the Automotive Market session on October 22 from 10-10:50 a.m.

The Detroit Chapter of the SID invites its members, and renowned scientific, engineering, and automotive manufacturing leaders from around the world, to gather for two days of technical knowledge sharing and the advancement of in-car electronic display-related technologies.

This year's program focuses on:

- Display, sensing and lighting technologies applicable to vehicular applications
- Human machine Interface (HMI) in the vehicle and system solutions
- Application issues with vehicular displays and lighting
- Advance technologies for displays and touchscreens
