

## 22nd ITS World Congress – Towards Intelligent Mobility – Better Use of Space

DENSO International America will participate in the 22nd ITS World Congress and Exhibition, the world's largest event in intelligent transport systems and services. Through the main theme, "Towards Intelligent Mobility – Better Use of Space," the Bordeaux Congress will focus not only on how achieving intelligent mobility will change our lives but also on the benefits space can bring to ITS applications.

Doug Patton, who oversees all North American product engineering and development at DENSO, will be one of seven speakers in the "HLTS 2 – Connected and Automated Driving" High-level Technology Summit held on Oct. 6 from 1:30 to 3 p.m. The panel will focus on technology readiness and debate the current development of connected and automated driving and what is coming in the foreseeable future.
