/ From advanced safety systems for automated driving to hybrid and electric vehicle components – we're crafting the core technologies of modern mobility.

DENSO's success is determined by the skills and dedication of our employees. Every employee's diverse talents, skills and perspectives enable us to improve lives and preserve the planet. Whether your passion lies in research, sales or manufacturing, the innovations we create together are at the core of vehicles, protect the people in and around those vehicles and ultimately contribute to a better world.
