

Active Safety: ADAS – Autonomous

DENSO International America, Inc. (DIAM) will join 250+ executives who are dedicated to developing active safety services at Active Safety: ADAS – Autonomous at The Baronette Renaissance in Novi, Mich.

Roger Berg, vice president, North America Research and Development Laboratories, DIAM, will participate in a session on Collision Avoidance “Hazardous Weather – No Problem!” He will explain how DENSO is working with technologies to build an automated system that will navigate the roads during any conditions and build in-safety measures when needed.
