DENSO Sponsors the National Society of Black Engineers Annual Conference in Detroit

***- Mobility supplier looks to showcase its innovative technologies and
exciting career opportunities, hire on-site -***

SOUTHFIELD, Michigan — [DENSO](#), the world's second largest mobility supplier, is a proud sponsor of the National Society of Black Engineers (NSBE) 45th Annual Convention taking place in Detroit, Mich., March 27-31, 2019. At the event, DENSO will conduct interviews with potential candidates and look to hire approximately 20 people onsite. The company is hiring for co-op, intern and full-time positions in the following engineering areas: mechanical, computer, electrical, software, computer science and industrial. Interested candidates can sign up for interviews [here](#).

At the Convention, DENSO will host a hospitality suite where attendees can meet and network with DENSO leaders and employees, who can discuss the company's latest innovations and software-based solutions focused on electrification, automated driving, connectivity and shared economy that are improving the future of mobility. To register for the hospitality suite, click [here](#).

"DENSO is a company that will challenge you immediately. You'll have an opportunity to learn quickly, add value and make an impact in one of the most exciting and fastest-changing industries," said Kenichiro Ito, chief executive officer for DENSO's North American operations. "NSBE attracts some of the highest-achieving students and professionals who have a passion for STEM and want to advance their communities and society at large. That's the kind of talent and determination we're looking for at DENSO."

The thousands of engineers at DENSO are directly responsible for everything from design and prototypes to production processes and cybersecurity software. Their successful efforts are featured in vehicles around the world as they create safer and more secure transportation while reducing harm to the environment.

"DENSO has a strong culture that gives employees the tools needed to be successful and innovative while providing a healthy work-life balance. Flextime, work-from-home options and a positive work environment play a large role in keeping employees happy and motivated," said Ashley Justman, an application engineer at DENSO.
