**Douglas E. Patton**

**Senior Technical Advisor**

**DENSO International America, Inc.**

Doug Patton is Senior Technical advisor at DENSO International America, Inc. (DIAM), and senior director of DENSO Corp. Located at DENSO's North American headquarters in Southfield, Michigan, where he provides input and support on all aspects of R&D in North America. In his previous position as Executive Vice President Engineering and CTO he oversaw all North American product engineering and development, campus facilities and operations including all testing and technical services, and Engineering Administration. He was responsible for climate control, engine components, and systems and components, engine electrical, safety products, cluster, in-vehicle-infotainment (IVI) and body electronics and small motor engineering.

Patton earned a Bachelor of Science degree in Electrical Engineering in 1977 and a Master of Business Administration degree in 1984, both from Bradley University in Peoria, Illinois.

He serves as president of the DENSO Foundation Board, is on the Board of Directors for the Engineering Society of Detroit (currently past president), and is also a member of the SAE, where he was the 2017 president. He is also an Engineering Society of Detroit Fellow.

Patton is a member of the Detroit Economic Club, Lawrence Technological University's College of Engineering Advisory Board, the Engineering Advisory Council of Kettering University and the Executive Leadership Team of the North American International Powertrain Conference.
