

## Driving Intelligent Mobility in Michigan

DENSO is leaving its footprint on intelligent mobile technology at the “Driving Intelligent Mobility in Michigan” event on April 30, 2014. **Doug Patton**, senior vice president of Engineering is one of two keynote speakers at the Westin Book Cadillac in Detroit, Mich.

Patton’s topic is *The Journey to the Fully Autonomous Vehicle*, where he will discuss the timeline associated with fully autonomous vehicle production, illustrating the importance of increased vehicle safety and enhanced automotive communication systems. Patton will also touch on how DENSO and others are participating in developing these technologies and how they can be integrated into Michigan.
