

# National Manufacturing Day Profiles

## DENSO Manufacturing Michigan

**Name – Wyatt West**

**Title –** Electrician Apprentice, Global Innerfin Condenser

**Responsibilities –** An apprentice's job is to learn. So, I work with DENSO journeymen to learn about our machines and processes. The apprenticeship to become a journeyman is 9,000 hours, and I just hit the halfway mark.

**Length of time with DENSO –** 5 years

**Quote –** “Working at DENSO has been awesome. I started as a temporary employee, and I’ve treated every position like I’m trying to get the next one up. DENSO is a great place for that. If you apply yourself, you will go somewhere. If you put in the effort, it doesn’t go unnoticed.”

**DENSO Manufacturing Michigan, Inc. (DMMI)** is the lead production facility for DENSO’s Thermal Systems North American Center (TAC), focusing on the manufacture of automotive air conditioning and engine cooling components and systems.
