

# HYBRID & ELECTRIC VEHICLE PRODUCTS

**50%** reduction in  
emissions

**25%** increase in fuel  
economy

## Going the Distance

Our hybrid and electric vehicle products are smaller, lighter and more efficient when it comes to managing energy. This helps give them more power to drive the distance.

### What Have We Been Working On?

- ✔ We downsized the inverter, while also making it more efficient
- ✔ We slashed the size and weight of power converter circuits
- ✔ We reduced the size of our motor-generator
- ✔ We maximized the charging capacity of our lithium-ion battery pack

#### ► **Made in North America**

DENSO's inverter, made in Maryville, Tennessee, began production in September 2014.

*Protecting lives, preserving the planet and preparing a bright future for generations to come.*
