

HEATING AND COOLING SYSTEMS

#1 world's first standardized
HVAC* module

One HVAC, Any Car

Traditionally, HVAC modules are designed and tailored to each model within vehicle segments. This means multiple designs differing in size, shape and function.

► **Made in North America**

DENSO's Stop/start technology is manufactured in Maryville, Tennessee.

DENSO's Heating and Cooling Technology

When you turn on your HVAC, our goal is to heat you up or cool you down **FASTER** than the competition. This has been our focus since we began making HVAC units in 1949.
