

STOP/START SYSTEMS

3-7% fuel savings depending on vehicle and system integration

Life Needs More Green Lights.
But When We Stop, It Doesn't Mean We
Can't **Save.**

Stop/start systems save gas by cutting the engine when the vehicle is idling at a stoplight or in other traffic situations.

Automatic Stop/Start System

- 1 Alternator
- 2 Tandem Solenoid Stop/start Starter
- 3 Cold Storage Evaporator
- 4 Lithium Battery

► **Made in North America**
DENSO's Stop/start technology is manufactured in Maryville, Tennessee.
